David:

This email is to provide written notification to US EPA that Abbott intends to sell a portion of the property comprising the Facility at the Wichita site. Specifically, Abbott intends to transfer approximately 9.4 acres of the property that is located between the railroad tracks to the west and South Ridge Road to the east, to Air Products Manufacturing Corporation. Paragraph 9 of the 2002 Administrative Order on Consent (AOC) requires Abbott to provide written notification to US EPA within 10 days prior to any such transfer. However, the parties would like to close the transaction as early as possible. Accordingly, this email is also to request your approval for Abbott to proceed with the transfer prior to the 10-day timeframe. I would appreciate it if you could respond to this email indicating your concurrence so that we may proceed with the transaction as proposed.

Thank you again for your consideration and please let me know if you need anything else.

Best regards,

Curt
